Lois was a Member of Glendale since the course opened in 1960. Riverside was the 1st course that she ever played and at Highlands, she broke 100.

Amusing Story

At the age of 90, one evening, Lois was in a hurry to plant her Spring flowers so that she could devote the rest of the year to golf. She was running, (yes, at 90 she was running) with her flower trays and water in hand; and she tripped over the flower bed edging breaking her femur. When the EMS arrived, she told them that they needed to hurry because she had a 9:08 tee time in the morning!..... Lois was in the hospital overnight, and as she was wheeled into the Operating Room, she was met by 3 physicians who explained how sorry they were that she would miss her tee time that morning.....

Lois used to say that golf is for her body and bridge is for her mind.
